DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hirsch (3034770).

Figure 6 shows a radiator 12, an inlet 14, a heat exchange section with parallel conduits 35, a bypass section 31 in parallel with conduits 35, and an outlet section 16. It would have been obvious to one of ordinary skill in the art to use the radiator of Hirsch to cool an engine with a coolant pump because the radiator has a number of advantages (col.1, lines 23-35).

Allowable Subject Matter

Claims 1-15 are allowed.
